

As used at most UK tournaments and Beach Grand Prix. Designed by Sportset and made under licence by Harrod UK. Set packs away into carrying bag. Designed for club and tournament use on grass or sand. Large bore aluminium tube for strength and weight reduction. The net is supplied with heavyweight fluorescent head and side bands. Tensioning is achieved by an adjustable pull down clamp system.

Portable Volleyball

Can be completely assembled by two people in less than ten minutes. Simply drive in four pegs, roll out the net, snap together the posts, hook up the guy ropes to support the net and the final net headline tension is achieved by pulling on the tension handle.

- Built in net tensioner
- 10 metre 2.0mm polyethylene net
- Packed length less than 1.2m
- Fluorescent banding for twilight visibility
- Adjusts to men's and ladies' height
- Aluminium poles polyester powder coated black
- Complete with carry bag, steel handled rubber mallet & steel ground pegs
- Alloy guy tensioners
- Black rope with crimped loop ends

Competition Telescopic Volleyball Posts

Designed to competition standard, these posts have a safe net tensioning system which allows simple transitions between heights with a further unique fine adjustment mechanism.

- Easily adjustable to men's (2.43m), women's (2.24m) and junior (2.13m) heights
- Bespoke aluminium extrusion 102mm dia. x 4mm which allow internal mechanisms to move in harmony
- 60mm x 40mm x 3mm laser cut steel telescopic top upright, mounted on internal slider with an integral plunger mechanism for smooth transition to men's, women's or junior heights
- Winder and dummy posts include a unique easy to use fine adjustment screw mechanism that can be operated whilst the net is under full tension
- 8mm thick steel base with support fins, floor fixings and wheels for ease of movement
- Uprights and bases polyester powder coated red.
- Floor plugs not included and should be ordered separately as required. SHP-001/100 (see page 5)
